

# SP-HF500A II

Two way Hi-Fi wood speakers

## A new renaissance for a classic style

Genius upgrade its popular two-way Hi-Fi wood speaker with a total output of 16W and universal power supply in SP-HF500A II. This two-way speaker design comes, delivering excellent full range audio with rich extended bass, eliminating the need for an actual subwoofer. With a tweeter inlaid, SP-HF500A II delivers crystal clear treble in a small space. The system combines 3" speaker driver with improved sound structure design to deliver great bass. A front Line-in and Headphone jack port allows you to plug in your digital music device, CD player or smartphone, making it easy to listen to your digital music library.

SP-HF500A II is classic beauty with burnished black panel. No matter if you're listening to music, playing games or seeing movies via your Smart phone, PC or notebook, you get a double benefit from hearing and vision at the same time.
