

## Every Second Counts: 24/7 Recording

This High Endurance microSD card works around the clock in professional and home surveillance cameras, dash cameras, and body cameras for reliable, non-stop recording. You can literally rest assured that it's capturing thousands of hours of footage without missing a single second, and when you need to review it, play it back in crisp 4K Ultra HD.

## Reliably Fast, No Matter What

With its ability to handle write-intensive applications with ease, this High Endurance microSD card reaches impressive read speeds up to 100MB/s and write speeds up to 80MB/s. And, it's ready to do so anywhere with an automatic error correction code (ECC) and built-in protection against water, shocks, X-rays, and extreme temperatures.

# THE CARD THAT KEEPS GOING

## Golden Series Memory Card High Endurance microSD UHS-I

### Features

- Captures extended lengths of 4K Ultra HD video with any UHS-I microSD compatible device
- Specifically designed for continuous recording with surveillance cameras, dash cameras, and body cameras
- Read and write speeds up to 100MB/s and 80MB/s respectively\*
- High-quality NAND flash for superior endurance and up to 512GB storage capacity for lengthy recording footage
- Waterproof, shockproof, X-ray-proof, and temperature-proof for use in extreme environments
- Equipped with an automatic error correction code (ECC) function

\*Speed may vary due to host and device configuration

### Specifications

- Speed Class: Class 10, UHS-I U3, A1, V30
- Capacity: 32GB, 64GB, 128GB, 256GB, 512GB
- Dimensions: 15.0mm x 11.0mm x 1.0mm
- Weight: 0.3g
- Performance Read(max.): 100MB/s
- Performance Write(max.): 80MB/s
- Durability: 10,000 insertions (minimum)
- Operating Temperature: -25°C - 85°C
- Storage Temperature: -40°C - 85°C
- Humidity: 8% - 95%
- Operation Voltage: 2.7V - 3.6V
- Warranty: 2 years
