

BOSE

QUIETCOMFORT ULTRA EARBUDS (2ND GEN)

Please read and keep all safety and use instructions.

Declarations of conformity can be found at: www.Bose.com/compliance

Bose Corporation hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU and all other applicable EU directive requirements.

Important Safety Instructions

Clean only with a dry cloth.

Only use attachments/accessories specified by the manufacturer.

Refer all servicing to qualified personnel. Servicing is required when the apparatus does not operate normally, or has been physically damaged.

WARNINGS/CAUTIONS

- To avoid accidental ingestion, keep the product away from children and pets. The product contains a battery, and may be hazardous if swallowed. If ingested, seek immediate medical attention. When not in use, store the product out of reach of children and pets.
- Product is not intended for use by children.
- To avoid hearing damage, do not use your headphones at a high volume. Turn the volume down on your product before placing the headphones in/on your ears, then turn the volume up gradually until you reach a comfortable, moderate listening level.
- The charge case lid should be securely closed when being worn or carried in a pocket, purse, or carry bag.
- Use of these headphones while operating a vehicle is not recommended and may be prohibited by law in some locations. Use caution and follow applicable laws regarding headphone use while operating a vehicle. Stop using your headphones immediately if they interfere with your ability to remain attentive or if they interfere with your ability to hear surrounding sounds, including alarms and warning signals, while operating a vehicle.
- Use caution if using these headphones while performing any activity that requires your attention. Do not use the headphones when the inability to clearly hear surrounding sounds may present a danger to yourself or others, for example while riding a bicycle or walking in or near traffic, a construction site, railroad, etc.
- Do NOT use the earbuds if they emit any loud unusual noise. If this happens, remove the earbuds and contact Bose customer service.
- Do NOT submerge the product in water or expose the product to water for extended periods.
- Remove product immediately if you notice heat coming from the product.

⚠ WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH OF CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

- Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
- Even used batteries may cause severe injury or death.
- Call a local poison control center for treatment information.
- Do not force discharge, recharge, disassemble, heat above 185° F (85° C) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- Non-rechargeable batteries are not to be recharged.
- This product contains non-replaceable batteries.
- Battery Type: 1454 | Nominal battery voltage: 3.85V

Contains small parts which may be a choking hazard. Not suitable for children under age 3.

This product contains magnetic material. Consult your physician on whether this might affect your implantable medical device.

- Do NOT make unauthorized alterations to this product.
- Keep the product away from fire and heat sources. Do NOT place naked flame sources, such as lighted candles, on or near the product.
- Do NOT use the earbuds without the supplied eartips attached.
- Use this product only with an agency-approved LPS power supply that meets local regulatory requirements (e.g., UL, CSA, VDE, CCC).
- The battery provided with this product may present a risk of fire or chemical burn if mishandled, incorrectly replaced or replaced with an incorrect type.
- If the battery leaks, do not allow the liquid to come in contact with the skin or eyes. If contact is made, seek medical advice.
- Do not expose products containing batteries to excessive heat (e.g. from storage in direct sunlight, fire or the like).
- Wipe off sweat from the earbuds and the charging case before charging.
- IPX4 is not a permanent condition, and resistance might decrease as a result of normal wear.
- To avoid hazardous radiation exposure from the internal laser component, use the product only as specified in the instructions. The earbuds should not be adjusted or repaired by anyone except properly qualified service personnel.
- Do not place or install near any heat sources, such as fireplaces, radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
- Complies with 21 CFR 1040.10 and 1040.11 except for conformance with IEC 60825-1 Ed. 3 as described in Laser Notice 56, date May 8, 2019.

This product is classified as a CLASS 1 CONSUMER LASER PRODUCT according to EN 50689:2021 and IEC 60825-1:2014.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving product or antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by Bose Corporation could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules and with ISSED Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with FCC and ISSED Canada radiation exposure limits set forth for general population. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC ID: A94408L / A94408R | **IC:** 3232A-408L / 3232A-408R

Case Model: 444965 | **Right Earbud Model:** 408R | **Left Earbud Model:** 408L

The earbuds in this system have been certified in accordance with the provisions set out in the Radio Law.

CAN ICES (B) / NMB (B)

CAN RSS-216 / CNR-216

For Europe: Frequency band of operation 2400 to 2483.5 MHz. | Maximum transmit power less than 20 dBm EIRP. | Frequency band of operation: 111 kHz - 148 kHz. | Maximum transmit power less than 37.7 dBuA/m.

SAR Information

Earbud	Measured 1-g SAR W/kg	Measured 10-g SAR W/kg
Left	0.18	0.08
Right	0.13	0.06

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

Low-power Radio-frequency Devices Technical Regulations

Without permission granted by the NCC, any company, enterprise, or user is not allowed to change frequency, enhance transmitting power or alter original characteristic as well as performance to an approved low power radio-frequency devices. The low power radio-frequency devices shall not influence aircraft security and interfere legal communications; If found, the user shall cease operating immediately until no interference is achieved. The said legal communications means radio communications is operated in compliance with the Telecommunications Management Act. The low power radio-frequency devices must be susceptible with the interference from legal communications or ISM radio wave radiated devices.

The power delivered by the charging source must be between min 2.5 Watts required by the radio equipment, and at least 3.5 Watts in order to achieve the maximum charging speed.

DON'T attempt to remove the rechargeable lithium-ion battery from this product. Contact your local Bose retailer or other qualified professional for removal.

Power State Information: The product, in accordance with the Ecodesign Requirements for Energy Related Products Directive 2009/125/EC and the Ecodesign for Energy-Related Products and Energy Information (Amendment) (EU Exit) Regulations 2020, is in compliance with Commission Regulation (EU) 2023/826. For information about power consumption for different standby modes and the period after which the product automatically reverts to those modes, visit www.Bose.com/compliance and select this regulation.

Please dispose of used batteries properly, following local regulations. Do not incinerate.

CONTENTS

Confirm that the following parts are included:

Bose QuietComfort Ultra Earbuds (2nd Gen)

Charging case

Eartips (sizes small and large)

NOTE: Medium eartips are attached to the earbuds. For help identifying the eartip sizes, see page 18.

Stability bands (sizes 2 and 3)

NOTE: Size 1 bands are attached to the earbuds. For help identifying the band sizes, see page 18.

USB Type-C® to USB-A cable

NOTE: If any part of your product appears to be missing or damaged, don't use it. Visit support.Bose.com/qcue2 for troubleshooting articles, videos, and product repair or replacement.

The Bose app lets you set up and control the earbuds from any mobile device, such as a smartphone or tablet.

Using the app, you can verify the earbud fit, manage *Bluetooth* connections, manage earbud settings, adjust the audio, choose your voice prompt language, and get any future updates and new features made available by Bose.

NOTE: If you've already downloaded the Bose app for another Bose product, you can add the earbuds from the product list screen.

DOWNLOAD THE BOSE APP

1. On your device, download the Bose app.

2. Follow the app instructions to add the earbuds.

The earbuds are rated IPX4 water resistant. They are designed to be sweat and weather resistant but aren't meant to be submerged under water.

CAUTIONS:

- Do NOT swim or shower with the earbuds.
- Do NOT submerge the earbuds.

NOTES:

- To prevent corrosion, regularly clean the charging contacts on the earbuds with a dry, soft cotton swab or equivalent.
- IPX4 isn't a permanent condition, and resistance might decrease as a result of normal wear.

INSERT THE EARBUDS

1. Insert the earbud so the eartip gently rests at the opening of your ear canal.

NOTE: Each earbud is marked with either an **R** (right) or **L** (left).

2. Slightly rotate the earbud back until the eartip creates a comfortable seal at your ear canal and the stability band rests against your ear ridge.

NOTE: You may need to rotate the earbud back and forth for the eartip to create a comfortable seal. However, rotating it too far back or forward may impact audio and microphone sound quality.

3. Check the fit (see page 16).
4. Repeat steps 1 – 3 to insert the other earbud.

When you insert the earbuds, the audio is personalized to your ears for the best audio performance and noise cancellation.

NOTE: If you're sharing the earbuds, place them in the charging case to clear the audio personalization between each user.

CHECK YOUR FIT

For the best fit, audio performance, and noise cancellation, use a mirror to make sure you're using the correct size eartips and stability bands. You may need to try a different size eartip or stability band for each ear.

TIP: You can also check your fit using the Earbud Seal Test in the Bose app. You can access this option from the Settings menu.

Eartips

FIT	WHAT TO CHECK
Proper fit	 <p>The eartip gently rests at the opening of your ear canal to create a comfortable seal. Background noise should sound muffled.</p> <p>NOTE: Noise cancellation may impact the ability to hear muffled noise.</p>
Too much pressure	 <p>The eartip feels uncomfortable and squished in your ear canal.</p>
Too loose	 <p>The eartip rests too deep in your ear canal, feels loose in your ear, or falls out when you move your head.</p>

Stability bands

FIT	WHAT TO CHECK
Proper fit	<div data-bbox="327 266 508 537"> ✓</div> <div data-bbox="554 375 953 423">The band doesn't stick out or feel squished against your ear ridge.</div>
Too big	<div data-bbox="327 586 508 857"> ✗</div> <div data-bbox="554 695 937 743">The band is sticking out or feels squished under your ear ridge.</div>
Too small	<div data-bbox="327 906 508 1177"> ✗</div> <div data-bbox="554 1024 908 1049">The band doesn't reach your ear ridge.</div>

TRY ANOTHER SIZE

Wear the earbuds for an extended period of time. If the earbuds don't feel comfortable or secure, or noise cancellation or sound quality isn't as expected, try another size eartip or stability band.

You may need to try all three eartip or band sizes or use a different size eartip or band for each ear.

Eartips

Three sizes of eartips are included with the earbuds: small, medium, and large.

Medium eartips come attached to the earbuds. If they feel too small, try large eartips. If they feel too big, try small eartips.

Stability bands

The stability bands are marked with size **1** (small), **2** (medium), or **3** (large) and an **R** (right) or **L** (left).

Size 1 bands come attached to the earbuds. If they feel too small, try size 2 bands.

CHANGE THE EARTIPS

1. Holding the earbud, gently squeeze the eartip and peel it away from the earbud.

CAUTION: To prevent tearing, do NOT pull on the edge of the eartip.

2. Choose a new eartip size (see page 18).
3. Align the eartip with the earbud nozzle and press the eartip onto the nozzle until you feel it snap securely into place and hear it click.

4. Repeat steps 1 – 3 for the other earbud, as needed.

NOTE: You may need to use a different size eartip for each ear.

5. Insert the earbuds (see page 15).
6. Check the fit (see page 16).

NOTES:

- If you change the eartip, you may need to change the stability band so the band rests comfortably against your ear ridge (see page 20).
- To see how-to videos about changing the eartips, visit: support.Bose.com/qcue2
- If you need additional eartip sizes, contact Bose customer service or visit: support.Bose.com/qcue2

CHANGE THE STABILITY BANDS

1. Holding the earbud, gently grab the stability band scoop and peel the band toward you, over the eartip, and away from the earbud.

Stability band scoop

CAUTION: To prevent tearing, do NOT pull on the thin part of the band.

2. Choose a new band size (see page 18). Select the band marked with either an **R** (right) or **L** (left), depending on the earbud.
3. With the band markings facing you and the band scoop facing away from you, align the dot on the band with the gray dot on the bottom of the earbud.
4. Gently stretch the band over the eartip, making sure the dots align and the tab on the band fits in the notch on the top of the earbud.

NOTE: Aligning the band correctly makes sure that the hole on the side of the band is over the acoustic port on the earbud so the port isn't blocked.

5. Press down until the band fits securely in place, then check for alignment.

6. Repeat steps 1 – 5 for the other earbud, as needed.

NOTE: You may need to use a different size band for each ear.

7. Insert the earbuds (see page 15).

8. Check the fit (see page 16).

NOTES:

- To see how-to videos about changing the bands, visit: support.bose.com/qcue2
- If you need additional stability band sizes, contact Bose customer service or visit: support.bose.com/qcue2

POWER ON

Open the charging case.

The earbuds power on. The earbuds status light glows according to the charging status (see page 42). The charging case status light glows according to the battery level (see page 43).

NOTE: When you remove the earbuds from the charging case, close the case to help preserve the battery life and keep the case free of debris.

POWER OFF

1. Place both earbuds in the charging case.

The earbuds disconnect from your device.

2. Close the case.

The earbuds power off. The charging case status light glows according to the battery level (see page 43).

STANDBY

Standby conserves the earbud battery when an earbud is out of the case and not in use. The earbud switches to Standby when you remove it from your ear and don't move it for 10 minutes.

To wake the earbud, insert the earbud in your ear.

Use touch control by tapping or swiping the touch surface of either earbud. With touch control, you can play/pause audio, change the volume, perform basic call functions, and use a shortcut to change the mode, change Immersive Audio settings, and more (see page 28).

TOUCH SURFACE AREA

The touch surface is located on the outer surface of both earbuds. It controls media playback, volume, phone calls, and your shortcut.

MEDIA PLAYBACK AND VOLUME

CONTROL	WHAT TO DO	
Play/Pause	Tap an earbud.	
Increase the volume	Swipe up on an earbud.	
Decrease the volume	Swipe down on an earbud.	

CONTROL	WHAT TO DO
Skip to the next track	Double-tap an earbud. 
Skip to the previous track	Triple-tap an earbud. 

PHONE CALLS

CONTROL	WHAT TO DO
Answer a call	Tap an earbud. 
End/Decline a call	Double-tap an earbud. 
Answer a second incoming call and put the current call on hold	Tap an earbud. 

CONTROL	WHAT TO DO
Decline a second incoming call and stay on current call	Double-tap an earbud. 
Mute/Unmute microphone during a phone call	Tap an earbud 

Call notifications

A voice prompt announces incoming callers and call status.

To stop call notifications, disable voice prompts using the Bose app. You can access this option from the Settings menu.

MODES

For information about changing the mode, see page 34.

IMMERSIVE AUDIO SETTINGS

For information about changing the Immersive Audio setting, see page 32.

DEVICE VOICE CONTROL

You can set a shortcut to access your device voice control using the earbuds. The microphone on the earbuds acts as an extension of the microphone on your device.

NOTE: To access device voice control using the earbuds, it must be set as a shortcut (see page 28).

CONTROL	WHAT TO DO
Access device voice control	<p>Touch and hold an earbud until you hear a tone. Release, then say your request.</p> 
Stop device voice control	<p>Tap an earbud.</p> 

A shortcut enables you to quickly and easily access one of the following functions:

- Cycle through modes (see page 33)
- Cycle through Immersive Audio settings (see page 31)
- Reconnect to a device (see page 46)
- Use your device voice control (see page 27)
- Access Spotify Tap (see page 35)

NOTE: By default, cycling through modes is enabled on both earbuds.

USE YOUR SHORTCUT

Touch and hold an earbud.

CHANGE OR DISABLE YOUR SHORTCUT

To change or disable a shortcut or to assign a different shortcut to each earbud, use the Bose app. To access this option, tap Shortcut on the product control screen.

NOTE: If you assign a different shortcut to each earbud, you must touch and hold the appropriate earbud. If you remove an earbud, you can only use the shortcut assigned to the earbud in your ear.

In-ear detection uses sensors to identify when you're wearing both earbuds or just a single earbud.

You can automatically play/pause audio, answer phone calls (if enabled), and adjust noise cancellation by inserting or removing an earbud.

NOTE: To manage in-ear detection features, use the Bose app. You can access this option from the Settings menu.

AUTO PLAY/PAUSE

When you remove an earbud, audio pauses on both earbuds.

To resume audio, reinsert the earbud.

NOTE: If you want to use a single earbud, you can tap the earbud in your ear to resume audio.

AUTO ANSWER CALL

You can answer phone calls by inserting an earbud.

NOTE: To enable this feature, use the Bose app. You can access this option from the Settings menu.

AUTO TRANSPARENCY

When you remove an earbud, the mode adjusts to Aware mode on the earbud in your other ear (see page 33).

When you reinsert the earbud, the earbud in your ear adjusts to the previous noise cancelling level.

NOTE: If you want to use a single earbud, you can use your shortcut to cycle through the modes and choose the appropriate mode.

Noise cancellation reduces unwanted noise, providing a clearer, more lifelike audio performance.

CHANGE THE NOISE CANCELLATION SETTING

You can switch between preset noise cancellation settings by changing the mode. For information about modes, see page 33.

NOISE CANCELLATION WHILE ON A CALL

When you make or receive a call, the earbuds remain at the current noise cancellation setting and self voice is activated. Self voice helps you hear yourself speak more naturally.

To adjust noise cancellation while on a call, change the mode (see page 34).

NOTES:

- Auto transparency is disabled while on a call (see page 29).
- To adjust self voice, use the Bose app. You can access this option from the Settings menu.

USE NOISE CANCELLATION ONLY

You can use noise cancellation only, without audio or interruptions from phone calls.

1. Do one of the following:
 - If you're wearing the earbuds, disconnect your device (see page 45).
 - If the earbuds are in the charging case, turn the *Bluetooth* feature off on your device. Then, remove the earbuds from the case and insert them in your ears.
2. Touch and hold an earbud to change the mode (see page 34).

NOTE: To reconnect your device, select the earbuds from the *Bluetooth* list on your device.

Immersive Audio takes what you're hearing out of your head and places it in front of you—like you're always in the acoustic sweet spot. It feels like the sound is coming from outside the earbuds, resulting in a more natural listening experience. Immersive Audio works on any streaming content from any source, taking it to new heights with better sound clarity and richer sound quality.

NOTE: When you make or receive a phone call, Immersive Audio is temporarily set to Off (see page 32).

IMMERSIVE AUDIO SETTINGS

SETTING	DESCRIPTION	WHEN TO USE
Motion	<p>Audio sounds like it's coming from two stereo speakers in front of you that follow the movements of your head.</p> <p>NOTE: This setting is used by default in Immersion mode.</p>	Use for the most consistent experience. Best for when you're doing activities that require you to frequently turn your head or look down.
Still	<p>Audio sounds like it's coming from two stereo speakers in front of you that stay where they are when you move your head.</p> <p>NOTES:</p> <ul style="list-style-type: none"> • A few seconds after you stop moving your head, the speakers recenter on your position. • To access this setting, use the Bose app. Tap Immersive Audio on the product control screen. 	Use for the most realistic and powerful experience. Best for when you're stationary.
Off	Audio sounds like it's coming from your earbuds.	Use when you want a classic listening experience or want to conserve battery life.

CHANGE THE IMMERSIVE AUDIO SETTING

You can change the Immersive Audio setting by changing the mode or using a shortcut to cycle through Immersive Audio settings.

TIP: You can also change the Immersive Audio setting using the Bose app. You can access this option from the product control screen.

Change the mode

For information about changing the mode, see page 34.

NOTES:

- Changing the mode changes both the Immersive Audio and noise cancellation settings.
- You can also create a custom mode with your preferred Immersive Audio and noise cancellation settings (see page 33).

Use your shortcut

You can change your shortcut to cycle through Immersive Audio settings without affecting your current mode's noise cancellation setting. This temporarily customizes the current mode until you power the earbuds off or change the mode.

NOTE: To change the Immersive Audio setting using the earbuds, it must be set as a shortcut (see page 28).

1. Touch and hold an earbud.

A voice prompt announces each Immersive Audio setting in a loop.

2. When you hear the name of your preferred setting, release the earbud.

IMMERSIVE AUDIO WHILE ON A CALL

When you make or receive a phone call, Immersive Audio is temporarily set to Off. When you end the call, the earbuds return to the previous Immersive Audio setting.

Listening modes are preset audio settings that you can switch between based on your listening preferences and environment. They consist of noise cancellation and Immersive Audio settings.

You can choose between three pre-configured modes — Quiet, Aware, and Immersion — or create up to seven of your own custom modes.

MODES

MODE	DESCRIPTION
Quiet	Full noise cancellation with Bose-optimized stereo audio. Allows you to block out distractions using the highest level of noise cancellation.
Aware	Full transparency with Bose-optimized stereo audio. Allows you to hear your surroundings while enjoying your audio in stereo.
Immersion	Full noise cancellation with Immersive Audio set to Motion. Allows you to block out distractions and immerse yourself in lifelike audio.
Custom	Custom noise cancellation and Immersive Audio settings based on your listening preferences and environment. NOTE: You can create up to seven custom modes using the Bose app. To access this option, tap Modes on the product control screen.

NOTES:

- By default, the earbuds power on in the last mode used, including any temporary changes to audio settings.
- For information about noise cancellation and Immersive Audio settings, see page 30 and page 31.

Aware mode with ActiveSense

The dynamic noise cancellation of Aware mode with ActiveSense technology allows you to hear your surroundings while reducing unwanted noise.

Aware mode with ActiveSense allows the earbuds to automatically increase noise cancellation when sudden or loud noises occur near you, so you can maintain awareness without intermittent noise interrupting your audio. Once the noise stops, noise cancellation automatically returns to the previous setting.

To enable ActiveSense, use the Bose app. To access this option, on the product control screen, tap **Modes > Aware > ●●●**.

CHANGE THE MODE

NOTE: To change the mode using the earbuds, it must be set as a shortcut (see page 28).

1. To cycle through modes, touch and hold an earbud.

A voice prompt announces each mode in a loop.

2. When you hear the name of your preferred mode, release the earbud.

TIP: You can also change the mode using the Bose app. To access this option, tap Modes on the product control screen.

Add or remove modes from the earbuds

To access modes on the earbuds, they must be set as favorites in the Bose app. By default, Quiet, Aware, and Immersion modes are set as favorites.

To add or remove modes from the earbuds, tap Modes on the product control screen and customize which modes are set as favorites.

Spotify Tap is music to your ears, quite literally. Get the tunes playing with a simple gesture.

NOTE: To use Spotify Tap, it must be set as your shortcut in the Bose app and the Spotify app must be up to date. If using an Android device, make sure that the Nearby Devices permission is enabled for the Spotify app.

1. Touch and hold an earbud to play a recommendation based on your listening taste.

2. Touch and hold an earbud again for the next recommendation made just for you.

CHARGE THE EARBUDS

1. Align the charging contacts on the left earbud with the charging pins on the left side of the charging case.

NOTE: Before charging, make sure the earbuds are at room temperature, between 46° F (8° C) and 102° F (39° C).

2. Place the earbud in the case until it magnetically snaps into place.

The earbuds status light glows according to the charging status (see page 42).

3. Repeat steps 1 – 2 for the right earbud.

NOTE: The earbuds charge if the case is open or closed.

CHARGE THE CHARGING CASE

CAUTION: Use this product only with an agency-approved LPS power supply that meets local regulatory requirements (e.g., UL, CSA, VDE, CCC).

1. Connect the small end of the USB cable to the USB-C® port on the bottom of the charging case.

2. Connect the other end to a USB-A wall charger (not provided) or computer.

The charging case status light slowly pulses amber (see page 43).

NOTE: Before charging, be sure the case is at room temperature, between 46° F (8° C) and 102° F (39° C).

Charge wirelessly

You can use a compatible third-party wireless charger (not provided) to charge the case.

1. For the fastest charging time, align the button on the back of the charging case with the center of your wireless charger.

2. Place the case on the charger.

The charging case status light glows according to the case charging status (see page 43).

NOTE: For more information, refer to your wireless charger owner's guide.

CHECK THE EARBUD BATTERY LEVEL

While using the earbuds

- When you remove the earbuds from the charging case and insert them into your ears, a voice prompt announces the earbud battery level.
- Use the Bose app. The earbud battery level is displayed on the product control screen.

NOTE: If one earbud has a lower battery level than the other, the voice prompt announces the lower battery level. If the battery is low, you hear “Battery low.”

While charging the earbuds

When you place the earbuds into the charging case, the earbuds status light glows according to the charging status (see page 42).

NOTE: If one earbud has a lower battery level than the other, the earbuds status light reflects the lower battery level.

CHECK THE CHARGING CASE BATTERY LEVEL

Open the charging case.

The charging case status light glows according to the battery level (see page 43).

NOTE: For more detailed battery level information, use the Bose app. The case battery level is displayed on the product control screen.

CHARGING TIME

COMPONENT	CHARGING TIME
Earbuds	Up to 2 hours ¹
Charging case	Up to 3 hours

NOTES:

- When the earbud battery level is low, a 20-minute charge with the case closed powers the earbuds for up to 2 hours.²
- A full charge powers the earbuds for up to 6 hours with Immersive Audio set to Off (up to 4 hours with Immersive Audio set to On).³
- When the case is fully charged, you can fully charge the earbuds up to 3 times.⁴
- When the earbuds are inside of the case, the case charging time varies.

¹ Testing conducted by Bose in January 2025 using production-representative Bose QuietComfort Ultra Earbuds (2nd Gen) and Bose QuietComfort Ultra Earbuds (2nd Gen) charging case. Quick charge testing consisted of inserting earbuds with battery depleted (to the point of no audio playback) into a fully charged case and charging earbuds for 20 minutes, then resuming *Bluetooth* A2DP audio playback with volume set to loudness of 75dB SPL, 3-band EQ set to zero, in Quiet Mode (full noise cancellation) with Immersive Audio switched off, resulting in up to 2 hours playback time before battery depletion. Time to achieve fully charged earbuds was determined by inserting earbuds with battery depleted (to the point of no audio playback) into a fully charged case and charging earbuds to 100% battery charge. Battery life varies based on settings and usage.

² See 1.

³ Testing conducted by Bose in January 2025 using production-representative Bose QuietComfort Ultra Earbuds (2nd Gen) and IEC 60268-1 pink noise using A2DP *Bluetooth* audio. Volume set to playback loudness of 75dB SPL, 3-band EQ set to zero, in Quiet Mode (full noise cancellation). With Immersive Audio off, playback time was up to 6 hours before battery depletion. With Immersive Audio on, playback time was up to 4 hours before battery depletion. Battery life varies based on settings and usage.

⁴ Testing conducted by Bose in December 2024 by inserting production-representative Bose QuietComfort Ultra Earbuds (2nd Gen) with battery depleted (to the point of no audio playback) into a fully charged Bose QuietComfort Ultra Earbuds (2nd Gen) charging case and charging earbuds to 100%, then resuming audio playback until battery depletion. Testing resulted in three complete charging cycles by the case before a full charge was no longer possible.

Earbuds Status Light

The earbuds status light is located on the inside surface of the charging case.

Bluetooth status

Shows the *Bluetooth* connection status to devices.

LIGHT ACTIVITY	SYSTEM STATE
Slowly pulses blue	Ready to connect
Quickly blinks blue	Connecting
Solid blue (5 seconds)	Connected
Blinks white 2 times	Device list cleared

Battery, update, and error status

Shows the earbud battery, update, and error status.

LIGHT ACTIVITY	SYSTEM STATE
Glows solid white (10 minutes)	Fully charged
Slowly pulses amber (10 minutes)	Charging
Blinks white 2 times, slowly pulses blue, and turns off	Reboot complete

LIGHT ACTIVITY	SYSTEM STATE
Blinks white 3 times (repeated)	Updating software
Blinks amber (3 seconds), then turns off	Restoring factory settings
Blinks amber and white	Error – contact Bose customer service

CHARGING CASE STATUS LIGHT

The charging case status light is located on the front of the charging case.

Battery, update, and error status

Shows the charging case battery, update, and error status.

LIGHT ACTIVITY	SYSTEM STATE
Solid white	Fully charged (100%) and connected to power
Solid white (5 seconds)	Charged (34% – 99%)
Solid amber (5 seconds)	Low charge (10% – 33%)
Blinks amber 2 times	Need to charge (less than 10%)
Slowly pulses amber	Charging and connected to power
Blinks white 3 times (repeated)	Updating software
Blinks amber and white	Error – contact Bose customer service

You can connect the earbuds to your device using the Bose app, the *Bluetooth* menu on your device, or Fast Pair (Android devices only).

You can store up to six devices in the earbud device list, and the earbuds can be actively connected to up to two devices at a time (multi-point connection). You can play audio from only one device at a time.

NOTES:

- For the best experience, use the Bose app to set up and connect your device (see page 13).
- For information about connecting using Fast Pair, see page 48.

CONNECT USING THE BOSE APP

To connect the earbuds and manage *Bluetooth* settings using the Bose app, see page 13.

CONNECT USING THE *BLUETOOTH* MENU ON YOUR DEVICE

1. With the earbuds in the charging case and the case open, press and hold the button on the back of the case until the earbuds status light slowly pulses blue.

NOTE: Make sure both earbuds are in the case and the case is open.

2. On your device, access *Bluetooth* settings.
3. Select the earbuds from the list of available products.

NOTE: Look for the name you entered for your earbuds in the Bose app. If you didn't name your earbuds, the default name appears.

The earbuds appear in the list of connected products. The earbuds status light glows solid blue (see page 42).

DISCONNECT A DEVICE

Place the earbuds in the charging case.

TIP: You can also use the Bose app or your *Bluetooth* settings to disconnect your device. Disabling the *Bluetooth* feature on your device disconnects the earbuds and all other devices.

RECONNECT TO A DEVICE

Reconnect to the most recently-connected device

When the earbuds are removed from the case, they connect to the two most recently-connected devices.

NOTES:

- The devices must be within range (30 ft or 9 m) and powered on.
- Make sure the *Bluetooth* feature is enabled on your device.
- If the multi-point connection feature is disabled, the earbuds try to reconnect with the most recently-connected device.

Reconnect to a different device

You can set a shortcut to reconnect to a different device in the earbud device list.

NOTE: To reconnect to a different device using the earbuds, you must set a shortcut to Switch Devices (see page 28).

1. Touch and hold the earbud assigned to this shortcut.

A voice prompt announces the name of the first connected device, then the second connected device (if any), followed by the names of the other devices in the earbud device list.

2. When you hear the correct device name, release the earbud.

You hear a tone that indicates when the device is connected.

TIP: You can also reconnect to a different device using the Bose app (see page 13) or the device *Bluetooth* settings.

NOTE: If two devices are already connected to the earbuds, the newly-connected device replaces the older of the two connections.

CONNECT ANOTHER DEVICE

By default, the earbuds can be actively connected to up to two devices at a time (multi-point connection).

To connect another device, connect using the Bose app (see page 13), the *Bluetooth* menu on your device (see page 44), or Fast Pair (Android devices only) (see page 48).

NOTES:

- You can only play audio from one device at a time.
- To manage or disable the multi-point connection feature, use the Bose app. You can access this option from the Settings menu.
- Disabling the multi-point connection feature disconnects the second connected device.

SWITCH BETWEEN TWO CONNECTED DEVICES

1. Pause audio on your first device.
2. Play audio on your second device.

The earbuds switch to the second device's audio stream.

NOTES:

- Your earbuds receive phone calls from both devices, regardless of which device is playing audio.
- Switching between devices is disabled during phone calls.

CLEAR THE EARBUDS DEVICE LIST

1. With the earbuds in the charging case and the case open, press and hold the button on the back of the case for 15 seconds until the earbuds status light blinks white 2 times and then slowly pulses blue.

NOTE: Make sure both earbuds are in the case and the case is open.

2. Delete the earbuds from the *Bluetooth* list on your devices.

All devices are cleared, and the earbuds are ready to connect (see page 13).

ANDROID DEVICES ONLY

If you have an Android device, you can access the following additional connection features.

Connect using Fast Pair

In one tap, the earbuds enable quick, effortless *Bluetooth* pairing with your Android devices.

NOTES:

- To use Fast Pair, you need an Android device running Android 6.0 or higher.
 - Your Android device must have the *Bluetooth* and Location features enabled.
1. With the earbuds in the charging case and the case open, press and hold the button on the back of the case until the earbuds status light slowly pulses blue.

NOTE: Make sure both earbuds are in the case and the case is open.

2. Place the case next to your Android device.

A notification appears on your device prompting you to pair the earbuds.

NOTE: If you don't see a notification, check that notifications are enabled for the Google Play Services app on your device.

3. Tap the notification.

Once the earbuds are connected, a notification appears confirming that the connection is complete.

NOTE: You can also tap the button on the notification to download the Bose app and finish setting up the earbuds.

Snapdragon Sound technology

Bose QuietComfort Ultra Earbuds (2nd Gen) feature Snapdragon Sound technology. Snapdragon Sound optimizes Qualcomm® audio technologies across connected devices to ensure the best sound quality, connection stability, and latency for your streaming audio.

To experience Snapdragon Sound, you need a Snapdragon Sound-certified device, such as a compatible Android device. Once you connect the earbuds, your device will automatically stream audio using the aptX Adaptive *Bluetooth* codec.

NOTE: To see which Snapdragon Sound features the earbuds support and check if your device is compatible, visit: support.Bose.com/qcue2

CONNECT TO A BOSE SMART SPEAKER OR SOUNDBAR

Using SimpleSync technology, you can connect the earbuds to a Bose Smart Speaker or Bose Smart Soundbar for a personal listening experience.

Benefits

- Use independent volume controls on each product to lower or mute your Bose Smart Soundbar while keeping the earbuds as loud as you like.
- Hear your music clearly from the next room by connecting the earbuds to your Bose Smart Speaker.

NOTE: SimpleSync technology has a *Bluetooth* range of up to 30 ft (9 m). Walls and construction materials can affect reception.

Compatible products

You can connect the earbuds to any Bose Smart Speaker or Bose Smart Soundbar.

Popular compatible products include:

- Bose Smart Ultra Soundbar/Bose Ultra Soundbar
- Bose Smart Soundbar
- Bose Smart Soundbar 900
- Bose Smart Soundbar 700/Bose Soundbar 700
- Bose Smart Soundbar 600
- Bose Soundbar 500
- Bose Smart Speaker 500/Bose Home Speaker 500
- Bose Home Speaker 300
- Bose Portable Smart Speaker/Bose Portable Home Speaker

New products are added periodically. For a complete list and more information, visit: support.bose.com/Groups

Connect using the Bose app

1. With the earbuds in the charging case and the case open, press and hold the button on the back of the case until the earbuds status light slowly pulses blue.

NOTE: Make sure both earbuds are in the case and the case is open.

2. Use the Bose app to connect the earbuds to a compatible Bose product. For more information, visit: support.bose.com/Groups

NOTES:

- It could take up to 30 seconds to connect.
- Make sure that the earbuds are within 30 ft (9 m) of your soundbar or speaker.
- You can connect the earbuds to only one product at a time.

Connect using the product controls

1. With the earbuds in the charging case and the case open, press and hold the button on the back of the case until the earbuds status light slowly pulses blue.

NOTE: Make sure both earbuds are in the case and the case is open.

2. On your soundbar remote or the top of your speaker, press and hold the *Bluetooth* button until the light bar or light ring pulses blue.

The earbuds connect to your soundbar or speaker, and you hear the same audio through both devices.

NOTES:

- It could take up to 30 seconds to connect.
- Make sure that the earbuds are within 30 ft (9 m) of your soundbar or speaker.
- You can connect the earbuds to only one product at a time.

RECONNECT TO A BOSE SMART SPEAKER OR SOUNDBAR

Use the Bose app to reconnect the earbuds to a previously-connected compatible Bose product. For more information, visit: [support.Bose.com/Groups](https://support.bose.com/Groups)

NOTES:

- Your soundbar or speaker must be within range (30 ft or 9 m) and powered on.
- If the earbuds don't reconnect, see "Earbuds don't reconnect to a previously-connected Bose Smart Soundbar or Speaker" on page 66.

STORE THE EARBUDS

When you're not using the earbuds, store them in the charging case. Close the charging case to help preserve battery life and keep the charging case free of debris.

CLEAN THE EARBUDS AND CHARGING CASE

COMPONENT	PROCEDURE
Eartips and stability bands	<p>Remove the eartips and bands from the earbuds and gently wash them by hand with a mild detergent and water.</p> <p>CAUTION: Never insert any cleaning tool into the eartips.</p> <p>NOTE: Make sure you thoroughly rinse and dry the eartips and bands before re-attaching them to the earbuds.</p>
Earbud nozzles	<p>Gently wipe the opening of the nozzle only with a dry, soft cotton swab or equivalent.</p> <p>CAUTION: Never insert any cleaning tool into the nozzle.</p>
Charging contacts (on earbuds)	To prevent corrosion, wipe with a dry, soft cotton swab or equivalent.
Charging case	Wipe only with a dry, soft cotton swab or equivalent.

REPLACEMENT PARTS AND ACCESSORIES

Replacement parts and accessories can be ordered through Bose customer service.

Visit: support.Bose.com/qcue2

LIMITED WARRANTY

The earbuds are covered by a limited warranty. Visit our website at worldwide.Bose.com/Warranty for details of the limited warranty.

To register your product, visit worldwide.Bose.com/ProductRegistration for instructions. Failure to register will not affect your limited warranty rights.

UPDATE THE EARBUDS

The earbuds begin updating automatically when connected to the Bose app and an update is available. Follow the app instructions.

UPDATE THE CHARGING CASE

Update the charging case using the Bose updater website. On your computer, visit: btu.bose.com and follow the on-screen instructions.

VIEW THE EARBUD DATE CODE

Remove the stability band from the earbud (see page 20).

The date code is located on the earbud in the wide area near the acoustic port.

VIEW THE CHARGING CASE SERIAL NUMBER

Remove the earbuds from the charging case.

The charging case serial number is located below the earbuds status light inside the earbud well.

TRY THESE SOLUTIONS FIRST

If you experience problems with the earbuds, try these solutions first:

- Charge the earbuds and the charging case (see page 36).
- Power on the earbuds (see page 22).
- Check the earbuds status light (see page 42) and charging case status light (see page 43).
- Make sure your device supports *Bluetooth* connections (see page 44).
- Download the Bose app and run available software updates (see page 13).
- Move your device closer to the earbuds (30 ft or 9 m) and away from any interference or obstructions.
- Increase the volume on the earbuds, your device, and the music app.
- Connect another device (see page 13).

OTHER SOLUTIONS

If you could not resolve your issue, see the table below to identify symptoms and solutions to common problems. You can also access troubleshooting articles, videos, and other resources at: support.Bose.com/qcue2

If you're unable to resolve your issue, contact Bose customer service.

Visit: worldwide.Bose.com/contact

SYMPTOM	SOLUTION
Earbuds don't power on	<p>Make sure the earbuds aren't in Standby state. To wake the earbuds, insert the earbuds in your ears.</p> <p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42).</p> <p>If the earbuds have been exposed to high or low temperatures, let the earbuds return to room temperature.</p> <p>See "Earbuds don't charge" on page 65.</p>

SYMPTOM	SOLUTION
Earbuds don't connect with device	<p>Connect using the <i>Bluetooth</i> menu on your device (see page 44).</p> <p>Disable the <i>Bluetooth</i> feature on your device and then re-enable.</p> <p>Clear the earbud device list (see page 47). Delete the earbuds from the <i>Bluetooth</i> list on your device, including any duplicate listings labeled LE (Low Energy). Connect again (see page 13).</p> <p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42). Connect again (see page 13).</p> <p>Make sure both earbuds are in the charging case securely (see page 36).</p> <p>Visit: support.Bose.com/qcue2 to see how-to videos.</p> <p>Reset the earbuds and charging case (see page 67).</p>
Earbuds don't reconnect with macOS	<p>Try reconnecting to the earbuds using the <i>Bluetooth</i> menu on your computer.</p> <p>Use the Bose app to select your earbuds. On the product control screen, tap Source, then use the Paired Devices list to reconnect your earbuds to your computer.</p>
Earbuds don't respond during app setup	<p>Uninstall the Bose app on your device. Reinstall the app (see page 13).</p> <p>Make sure you're using the Bose app for setup (see page 13).</p> <p>Make sure you have given the Bose app access to <i>Bluetooth</i> connections in your device Settings menu.</p> <p>Make sure the <i>Bluetooth</i> feature is on in your device Settings menu.</p>

SYMPTOM	SOLUTION
Bose app can't find earbuds	<p>Uninstall the Bose app on your device. Reinstall the app (see page 13).</p> <p>Make sure you have given the Bose app access to <i>Bluetooth</i> connections in your device Settings menu.</p> <p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42). Remove the earbuds.</p> <p>With the earbuds in the charging case and the case open, press and hold the button on the back of the case until the earbuds status light slowly pulses blue.</p> <p>If the earbuds were previously connected to a PC currently running Microsoft Teams, quit the Microsoft Teams app. If this does not resolve the issue, turn off <i>Bluetooth</i> on that PC or leave its <i>Bluetooth</i> range (typically around 30 feet).</p> <p>See "Earbuds don't connect with device" on page 56.</p>
Bose app doesn't work on device	<p>Make sure your device is compatible with the Bose app and meets minimum system requirements. For more information, refer to the app store on your device.</p> <p>Uninstall the Bose app on your device. Reinstall the app (see page 13).</p>
Eartips aren't comfortable at ear canal	<p>Make sure the eartip isn't resting too deep in your ear canal (see page 16).</p> <p>Try a larger eartip. If that doesn't help, try a smaller eartip (see page 19).</p> <p>Try a smaller stability band (see page 20).</p> <p>Check the earbud fit using a mirror (see page 16).</p> <p>Check the earbud fit using the Earbud Seal Test in the Bose app. You can access this option from the Settings menu.</p> <p>Contact Bose customer service or visit support.Bose.com/qcue2 for additional size eartips and stability bands or to see how-to videos.</p>

SYMPTOM	SOLUTION
Stability band isn't comfortable at ear ridge	<p>Try a smaller stability band (see page 20). If you're already using the smallest stability band, try a smaller eartip (see page 19).</p> <p>Check the earbud fit using a mirror (see page 16).</p> <p>Check the earbud fit using the Earbud Seal Test in the Bose app. You can access this option from the Settings menu.</p> <p>Contact Bose customer service or visit support.bose.com/qcue2 for additional size eartips and stability bands or to see how-to videos.</p>
Earbuds aren't secure	<p>Make sure the eartip is resting gently at the opening of your ear canal (see page 15).</p> <p>Try a larger stability band (see page 20).</p> <p>Try a larger eartip (see page 19).</p> <p>Contact Bose customer service or visit support.bose.com/qcue2 for additional size eartips and stability bands or to see how-to videos.</p>
Eartips are falling off	<p>Make sure the eartips are securely attached to the earbuds (see page 19).</p>
Stability bands are falling off	<p>Make sure the bands are securely attached to the earbuds (see page 20).</p> <p>Make sure the bands are positioned on the earbuds correctly (see page 20).</p>

SYMPTOM	SOLUTION
Intermittent <i>Bluetooth</i> connection	<p>Clear the earbud device list (see page 47). Delete the earbuds from the <i>Bluetooth</i> list on your device, including any duplicate listings labeled LE (Low Energy). Connect again (see page 13).</p> <p>Move the device closer to the earbuds.</p> <p>Reset the earbuds and charging case (see page 67).</p>
No sound	<p>Make sure you're using the correct eartip and band sizes for each ear (see page 18).</p> <p>Check the earbud fit using a mirror (see page 16).</p> <p>Check the earbud fit using the Earbud Seal Test in the Bose app. You can access this option from the Settings menu.</p> <p>Visit: support.Bose.com/qcue2 to see how-to videos.</p> <p>Make sure the volume is turned up (see page 24).</p> <p>Make sure that both eartips fit securely in your ear, and they aren't rotated too far back (see page 15).</p> <p>Make sure your head is upright when inserting the earbuds.</p> <p>Press play on your device to make sure audio is playing.</p> <p>Play audio from a different application or music service.</p> <p>Play audio from content stored directly on your device.</p> <p>If two devices are connected, pause your other device first.</p> <p>Clear any debris or wax buildup from the eartips and earbud nozzles (see page 53).</p> <p>Restart your device.</p> <p>Disable in-ear detection features using the Bose app (see page 29).</p>

SYMPTOM	SOLUTION
No sound from one earbud	<p>Make sure you're using the correct eartip and band sizes for each ear (see page 18).</p> <p>Check the earbud fit using a mirror (see page 16).</p> <p>Check the earbud fit using the Earbud Seal Test in the Bose app. You can access this option from the Settings menu.</p> <p>Visit: support.Bose.com/qcue2 to see how-to videos.</p> <p>Make sure the software in the Bose app is up to date (see page 54).</p> <p>Make sure that both eartips fit securely in your ear, and they aren't rotated too far back (see page 15).</p> <p>Make sure your head is upright when inserting the earbuds.</p> <p>Clear any debris or wax buildup from the eartips and earbud nozzles (see page 53).</p> <p>If two devices are connected, disconnect the second device.</p> <p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42). Remove the earbuds.</p>
Audio and video are out of sync	<p>Close and re-open the application or music service.</p> <p>Play audio from a different application or music service.</p> <p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42). Remove the earbuds.</p>

SYMPTOM	SOLUTION
Poor sound quality	<p>Check the earbud fit using a mirror (see page 16).</p> <p>Check the earbud fit using the Earbud Seal Test in the Bose app. You can access this option from the Settings menu.</p> <p>Make sure you're using the correct eartip and band sizes for each ear (see page 18).</p> <p>Visit: support.Bose.com/qcue2 to see how-to videos.</p> <p>Make sure you're using the Bose app for setup (see page 13).</p> <p>Try a different audio track.</p> <p>Play audio from a different application or music service.</p> <p>Clear any debris or wax buildup from the eartips and earbud nozzles (see page 53).</p> <p>If two devices are connected, disconnect the second device.</p> <p>Turn off any audio enhancement features on the device or music app.</p> <p>Make sure your earbuds are connected over the correct <i>Bluetooth</i> profile: Stereo A2DP. Check your device's <i>Bluetooth</i>/audio settings menu to make sure the correct audio profile is selected.</p> <p>Disable the <i>Bluetooth</i> feature on your device and then re-enable.</p> <p>Clear the earbud device list (see page 47). Delete the earbuds from the <i>Bluetooth</i> list on your device, including any duplicate listings labeled LE (Low Energy). Connect again (see page 13).</p> <p>If you're sharing the earbuds, place them in the charging case to clear the audio personalization between each user.</p>

SYMPTOM	SOLUTION
Microphone doesn't pick up sound	<p>Make sure the earbuds aren't rotated too far back or forward (see page 15). For the best microphone sound quality, the earbuds should be angled so that they point towards your mouth or chin.</p> <p>Try another phone call.</p> <p>Try another compatible device.</p> <p>Disable the <i>Bluetooth</i> feature on your device and then re-enable.</p> <p>Make sure the stability bands are positioned properly so the hole on the side of the band is aligned with the acoustic port on the earbud (see page 20).</p> <p>Clear the earbud device list (see page 47). Delete the earbuds from the <i>Bluetooth</i> list on your device, including any duplicate listings labeled LE (Low Energy). Connect again (see page 13).</p>
Can't adjust the mode	<p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42). Remove the earbuds.</p> <p>If you customized your shortcut to be on a specific earbud, make sure you touch and hold the correct earbud.</p> <p>See "Earbuds don't respond to touch control" on page 64.</p> <p>Use the Bose app to adjust the mode. You can access this option from the product control screen (see page 13).</p>

SYMPTOM	SOLUTION
Poor noise cancellation	<p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42). Remove the earbuds.</p> <p>Check if ActiveSense is enabled (see page 33).</p> <p>Check the earbud fit using a mirror (see page 16).</p> <p>Check the earbud fit using the Earbud Seal Test in the Bose app. You can access this option from the Settings menu.</p> <p>Check the mode (see page 33).</p> <p>Remove the earbuds from your ears and reinsert in your ears.</p> <p>Clear any debris or wax buildup from the eartips and earbud nozzles (see page 53).</p> <p>If you're on a phone call or using voice control on your device, lower or turn off self voice using the Bose app (see page 30).</p> <p>If you're sharing the earbuds, place them in the charging case to clear the audio personalization between each user.</p> <p>Reset the earbuds and charging case (see page 67). If that doesn't work, restore the earbuds to factory settings (see page 68).</p>
Difficulty hearing caller while on a phone call	<p>Increase the volume using your device.</p> <p>Make sure the call is being routed through your earbuds instead of your device speakers.</p> <p>Try a different mode (see page 33).</p> <p>Clear any debris or wax buildup from the eartips and earbud nozzles (see page 53).</p>
Difficulty hearing own voice while on a phone call	<p>Change the mode to Aware mode (see page 34).</p> <p>Use the Bose app to adjust self voice. You can access this option from the Settings menu.</p>
Earbuds don't respond	<p>Place both earbuds in the charging case until they magnetically snap into place. Close and re-open the case. The earbuds status light displays charging status (see page 42). Remove the earbuds.</p> <p>Reset the earbuds and charging case (see page 67). If that doesn't work, restore the earbuds to factory settings (see page 68).</p>

SYMPTOM	SOLUTION
Earbuds don't respond to touch control	<p>Make sure you're touching the correct touch control surface (see page 24).</p> <p>Make sure your finger is making good contact with the touch control surface (see page 24).</p> <p>For multi-tap functions, vary the tap pressure.</p> <p>Make sure your fingers are dry.</p> <p>If your hair is wet, make sure it isn't interfering with the touch surface.</p> <p>If wearing gloves, remove them before touching the touch control surface.</p> <p>Disable in-ear detection features using the Bose app (see page 29).</p> <p>If the earbuds have been exposed to high or low temperatures, let the earbuds return to room temperature.</p> <p>Reset the earbuds and charging case (see page 67).</p> <p>Make sure touch controls are enabled using the Bose app.</p>
Touch controls activate unintentionally	<p>Use the Bose app to disable touch controls. You can access this option from the Settings menu.</p>
Can't adjust volume	<p>Make sure volume control is enabled using the Bose app (see page 24).</p> <p>Make sure you're swiping the touch control surface in the correct direction (see page 24).</p> <p>See "Earbuds don't respond to touch control."</p>
Can't access shortcut	<p>Make sure you have set a shortcut using the Bose app (see page 28).</p> <p>If you customized the shortcut to a specific earbud, make sure you touch and hold the correct earbud.</p>

SYMPTOM	SOLUTION
Earbuds don't charge	<p>Make sure the earbuds are properly placed in the charging case. To help preserve the battery life, the case should be closed while the earbuds are charging (see page 36).</p> <p>Make sure there is no dirt or debris covering the charging contacts on the earbuds or the charging pins in the case.</p> <p>Make sure the stability bands are positioned on the earbuds correctly (see page 20). If the bands are positioned incorrectly, the charging contacts on the earbuds may not align with the charging pins in the case.</p> <p>Make sure the USB cable is correctly aligned with the port on the charging case.</p> <p>Secure both ends of the USB cable.</p> <p>Try another USB cable.</p> <p>Try another wall charger.</p> <p>If using a wireless charger, make sure you align the button on the back of the charging case with the center of your wireless charger to obtain a full wireless connection (see page 38).</p> <p>If the earbuds or charging case have been exposed to high or low temperatures, let the earbuds or case return to room temperature. Charge again (see page 36).</p>
Charging case doesn't charge	<p>Make sure the USB cable is correctly aligned with the port on the charging case.</p> <p>If the charging case battery is fully depleted, make sure the USB cable is attached long enough for the case to gain an initial charge. If you remove the cable and the charging case status light goes out, reattach the USB cable.</p> <p>Secure both ends of the USB cable.</p> <p>Try another USB cable.</p> <p>Make sure the charging case is closed. To help preserve the battery life, the case should be closed while it's charging.</p> <p>Try another wall charger.</p> <p>If the charging case has been exposed to high or low temperatures, let the case return to room temperature. Charge again (see page 37).</p> <p>Make sure any charging case accessories are properly installed and don't prevent the USB cable from securely connecting to the port on the charging case.</p> <p>If using a wireless charger, make sure you align the button on the back of the charging case with the center of your wireless charger to obtain a full wireless connection (see page 38).</p>

SYMPTOM	SOLUTION
Voice prompt language isn't correct	Change the voice prompt language using the Bose app (see page 13). You can access this option from the Settings menu.
Not receiving call notifications	<p>Make sure your device isn't set to Do Not Disturb.</p> <p>Make sure voice prompts are enabled using the Bose app (see page 13). You can access this option from the Settings menu.</p> <p>Make sure you have given the earbuds access to your contacts in your device <i>Bluetooth</i> menu.</p>
Earbuds making chirping sound	<p>Make sure the earbud nozzles aren't blocked (see page 19).</p> <p>Clear any debris or wax buildup from the eartips and earbud nozzles (see page 53).</p>
Earbuds don't connect to a Bose Smart Soundbar or Speaker	<p>Make sure you are connecting to a compatible Bose product. For a list of compatible products, visit: support.bose.com/Groups</p> <p>With the earbuds in the charging case and the case open, press and hold the button on the back of the case until the earbuds status light slowly pulses blue.</p> <p>Make sure that the earbuds are within 30 ft (9 m) of your soundbar or speaker.</p>
Earbuds don't reconnect to a previously-connected Bose Smart Soundbar or Speaker	With the earbuds in the charging case and the case open, press and hold the button on the back of the case until the earbuds status light slowly pulses blue. Use the Bose app to connect the earbuds to a compatible Bose product. For more information, visit: support.bose.com/Groups
Delayed audio when connected to a Bose Smart Soundbar or Speaker	Download the Bose app and run available software updates.

RESET THE EARBUDS AND CHARGING CASE

If the earbuds or charging case are unresponsive, you can reset them.

Resetting the earbuds and charging case resets the product controls and reboots the earbuds and case. It doesn't clear any device settings.

1. Place both earbuds in the charging case until they magnetically snap into place and the earbuds status light displays charging status (see page 42).
2. Close the case lid, then connect the small end of the USB cable to the USB-C® port on the bottom of the case.

3. Connect the other end to a USB-A wall charger (not provided) or computer.

The charging case status light slowly pulses amber (see page 43).

4. Press and hold the button on the back of the case for up to 30 seconds until the charging case status light turns off.

RESTORE THE EARBUDS TO FACTORY SETTINGS

A restore to factory settings clears all settings and return the earbuds to their original out-of-box state. After, the earbuds can be configured as if they were being set up for the first time.

Restoring to factory settings is only recommended if you are having issues with the earbuds or you have been instructed to do so by Bose customer service.

1. Remove the earbuds from the *Bluetooth* list on your device.
2. Remove the earbuds from your Bose account using the Bose app.

NOTE: For more information about how to remove the earbuds from your Bose account using the Bose app, visit: support.Bose.com/qcue2

3. With the earbuds in the charging case and the case open, press and hold the button on the back of the case for up to 30 seconds until the earbuds status light blinks white 2 times, slowly pulses blue, and then turns off.

NOTE: Make sure both earbuds are in the case and the case is open.

4. Repeat the previous step 2 more times.

After the third time, the status light blinks amber for 3 seconds to indicate factory settings are being restored.

When the restore is complete, the status light slowly blinks blue. The earbuds are now in their original out-of-box state.

NOTE: If you're unable to resolve your issue, additional troubleshooting and support is available at: support.Bose.com/qcue2
