WEEE Directive & Product Disposal

At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.

System Requirements

- Windows 10, 8.1, and 7
- Mac OS 10.14.x, 10.15.x, and 11.x

In the Box

- 1x USB-C 4K Triple Display Universal Docking Station
- 1x 1M USB-C to C Cable(E-Mark Chip)
- 1x 1M USB 3.0 A to C Cable
- 1x DVI to VGA Adapter
- 1x Quick Start Guide
- 1x 100W Power Adapter

Overview

Front Panel

- Two USB-C Ports:**
Connects to Type-C peripherals.
- 3.5mm Mic Input Port:**
Connects to microphone & headset.
- One USB 3.0 Type-A Port:**
Connects to Type-A peripherals.
- One USB 3.0 Type-A Port:**
Connects to Type-A peripherals with fast charging.

Rear Panel

- Two USB 3.0 Type-A Ports:**
Connects to Type-A peripherals.
- 2K HDMI Port:**
Connects to 2K HDMI monitor.
- DVI Port:**
Connects to 2K DVI monitor.
- 10/100/1000Mbps Ethernet Port:**
Connects to Gigabit Ethernet network.
- 4K HDMI Port:**
Connects to 4K HDMI monitor (USB3.1 VESA Alternate Mode Only).
- USB-C Port (Upstream Port):**
Connects to the laptop.
- Power Jack:**
External power supply for dock operation.

Note 1

There are two HDMI ports on the rear panel, the upper one and DVI port both are 2K resolution, while the bottom one co-works with USB-C upstream port for supporting 4K@30Hz.

Installation

Dual Monitors Connection

1. Please refer to driver download links to download the latest drivers.
2. Connect your laptop (of Type-A port) and USB-C port of dock via the USB 3.0 A to C Cable.
3. Connect the other monitor to the DVI port.
4. Plug the dock in a power outlet and switch it on.

Note 2: For Laptops without USB-C ports

You can use USB 3.0 A to C cable if your laptop doesn't own any USB-C port (This A to C cable is not used for Power Delivery but only for transferring data; if you need to charge your laptop, please connect it to the original power adapter.)

Triple Monitors Connection

1. Connect your laptop (of Type-C port) and USB Type-C port through the USB-C cable with up to . 65W power supply to the laptop.
2. Connect a monitor to the upper HDMI port.
3. Connect a monitor of DVI port to the DVI port of dock.
4. Plug the dock in a power outlet and turn it on.

Note 3: For Laptops with USB-C ports

Please check your laptop manual first and make sure whether your laptop's USB-C port equipped with full function USB3.1 (data transfer, upstream charging and VESA Alternate Mode), if it is not, please refer to Note 2; otherwise, just connect your monitors to the dock according to the drawing above.
