

V15PRO

2-WAY ACTIVE SPEAKER WITH DSP

V PRO series is the ultimate evolution of the acclaimed V series of PROEL powered loudspeakers. The V PRO features now a totally new pre-amp section including an advanced processing with high-performance DSP engine, for a very smooth response and a high-definition sound. The possibility to select the 5 different EQ presets allows to adapt the system response to the different applications with a touch of your fingers. These ultra-portable speakers combine, in carefully engineered and light-weight cabinets, the clearest and most accurate PROEL sound with Class D Amplifier technology and Switch Mode Power Supply, offering an unbeatable PA solution at its price point. The four models, V8PRO, V10PRO, V12PRO and V15PRO, feature a new extremely efficient amplifier module capable of delivering 600 W of robust power to the transducers. Thanks to the use of SMPS technology, this power comes in an ultra-lightweight package, making the V PRO the most portable PROEL speakers ever.

The V PRO cabinets, expression of the most advanced Italian design, include a super-comfortable luggage-style top handle for an effortless portability. The slanted shape allows the speakers to be laid on their side and used also as stage monitors.

Thanks to the MIC/ LINE input and the WIRELESS USB input for the use of PROEL U24 microphone systems, the V PRO can be used in a variety of applications without external equipment.
